

Thermal Square Bump Fin®

Our exclusive patented fin design “**Thermal Square Bump Fin®**” manufactured in the USA at our Dallas Texas Plant, is built extra strong with heavy-duty extruded tubes, T-Bar, and our unique heavy-duty square bump fin design, makes it all you need for handling virtually any high pressure Heavy to Severe Duty application requiring up to 500 PSI.

Need more than a Core — not a problem we’ve got you covered. We can also build all aluminum radiators, charge air coolers, oil coolers, fuel coolers, tanks, fan shrouds, radiator frames and more to round out your cooling system needs. See our All Aluminum Bi-Fold Brochure or call us for full details.
